BSK792220M BI Oven

Master even the most complex flavours.

Every meal should be an experience. With that in mind we created the SteamPro oven. It has three cooking modes - heat, steam and a combination of both. In the combination mode it will calculate exactly the right combination of heat and steam automatically.

Restaurant-quality results at home

Professional chefs have long turned to 'sous vide' cooking to achieve perfect, consistent results. SousVide brings restaurant-quality technology into your own home, allowing you to create dishes that exceed your expectations.

Perfect results with the Food Sensor

Thanks to the Food Sensor of this oven you can measure the core temperature from the center of your dish during the cooking process. So you get the perfect results everytime.

More Benefits :

- The Humidity sensor automatically uses right amount of steam for perfect results
