

BSE892230M BI Oven

Master even the most complex flavours.

Every meal should be an experience. With that in mind we created the SteamPro oven. It has three cooking modes - heat, steam and a combination of both. In the combination mode it will calculate exactly the right combination of heat and steam automatically.

Restaurant-quality results at home

Professional chefs have long turned to 'sous vide' cooking to achieve perfect, consistent results. SousVide brings restaurant-quality technology into your own home, allowing you to create dishes that exceed your expectations.

Cook to taste, every time

By precisely measuring the core temperature of your food, the Food Sensor lets you know when your rare, medium or well done meat is ready. As well as cooking fish and vegetables just the way you like them.

More Benefits :

- The Humidity sensor automatically uses right amount of steam for perfect results
