

## FFB51400ZW Dishwasher

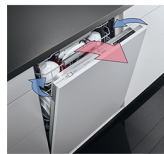

### CORNER-TO-CORNER. COVERED

Even closely stacked or larger dishes should receive corner-to-corner cleaning. Now, the innovative satellite spray arm in the new AEG dishwasher ensures that every corner of the machine and every inch of the items inside are reached by spraying water thoroughly.

### Dedicated protection for your delicate glasses

Glasses are often the most delicate items in your dishwasher, which means they need special care. The upper basket in this dishwasher has soft rubber spikes to support and protect glasses. The SoftSpikes stabilise your glasses and mugs efficiently, preventing them from falling over and possibly breaking.

### Drying naturally

The new Airdry technology lets you maximise your drying performance with natural airflow. The door automatically opens up 10 cm when the cycle is in the last stage and the dishes are done. It dries your dishes naturally while also reducing your energy.
