

Versatility for every purpose

With the 6000 FlexiBridge® Induction Hob you can customize your own cooking area, combining and controlling up to 4 segments. It's ideal for large or long pans, or for cooking lots of dishes together that need extra space.

Product Benefits & Features

Versatile cooking with FlexiBridge®

The FlexiBridge® feature allows you to customize your own cooking area, combining and controlling up to 4 segments in different ways. It's ideal for large or long pans, or when you need to cook many dishes at the same time.

Smoother, speedier heat shifts with PowerSlide

From boiling to simmering to keeping warm: when you need repeated quick heat changes to create a dish, use PowerSlide. Simply slide your pan from heat to heat, without stopping to adjust temperatures as you cook.

Hob2Hood®: The hands-free hood

The Hob2Hood® function connects the hob and the hood. The cooker hood automatically adjusts the fan speed based on the heat, without lifting a finger. For powerful extraction when searing. And quieter extraction when simmering.

Quicker heat for extra speed with PowerBoost

No more waiting around for pots to boil. The PowerBoost function gives you an instant burst of heat, boiling water in under 90 seconds. It's perfect for tasks like boiling a large pot of water quickly.

Hob timer. Built for precision

The built in hob timer can be set up to one hour, and will automatically power the hob down when it elapses. For effortlessly precise results.
