

IKE85654XB BI Hob

More space. More taste. At once

Create several large surfaces to cook on with the Multiple Bridge Function in the AEG induction hob. Two zones can be paired at the touch of a button, providing a single bridge for cooking. By automatically aligning to share both temperature and time settings, it's optimised for using large pots and pans at once.

Zone in with intuitive controls

By turning the hob on and placing a pan down, the ActiveTouch automatically lights up, intuitively showing which zone to use. Once selected, the temperature lights up in red, while the other available options remain white. Backlit LED lights also indicate

Cook without distractions

This hob has Hob2Hood, a useful feature that automatically controls your cooker hood and lights. It means you don't get distracted by trying to regulate the fan when you're at crucial cooking moments: you can simply concentrate on getting your dish right. But
