Take complete control of the settings at the touch of a finger
This LED display with advanced Touch Controls lets you take full control of the storage conditions of your food. The controls are so sensitive that they can be precisely adjusted with just the lightest touch of a finger, while feedback can be viewed at a glance thanks to the clear LED screen on the internal control panel.

Safe storage for heavy items at every level of your fridge
This refrigerator has shelves of robust safety glass, which can safely support even the heaviest items.

Bright and even light that shines into every corner of your fridge
LED lights represent the most cutting edge lighting technology, which is why AEG has integrated them inside this fridge. The internal LED lighting produces a brighter light, which shines evenly across the whole space. Plus, LED technology is smaller and more energy efficient, for more space inside

Intelligent design for simple, effective cleaning
The interior of this refrigerator has specially rounded corners to make cleaning it fast, simple and effective.

Quickly reach the optimum storage temperature with this fridge
When new food items are placed in a fridge, not only do they take time to cool down to the optimum temperature, but for a while they can even raise the temperature, affecting other products. The Coolmatic function prevents this by lowering the fridge temperature for a short period after it has been re-stocked, before switching
