

## ZK631F BI Hob

### Gives you some of the quickest results possible!

The ceramic cooking zones on this hob heat far more rapidly than solid hot plates, enabling you to boil water and cook meals even faster.

### Why have two control panels, when just one will make life easier?

This hob is controlled via the panel on the oven – it couldn't be more convenient. There's only one place to look at, whether you want to adjust the oven or the hob.

### The hob that can take on your oval pans – as well as standard ones

This oval-shaped multipurpose cooking zone not only makes it possible to evenly heat oval-shaped pans, but it can take on pans of many different shapes and sizes.

### More Benefits :

- Dual zone for more flexibility in choice of pan size
- Ceramic glass surface for fast, easy cleaning
